

# STONY PLAIN SUN.

VOLUME TEN

STONY PLAIN, ALBERTA, THURSDAY, OCT. 17, 1929.

Whole Number 480

STONY PLAIN, ALBERTA, OCT. 14TH, 1929.  
EGG GRADING.

Under a recent Dominion Act of Parliament, we are compelled to grade all eggs. Eggs are classified as Extras, Firsts, Seconds, and Eggs of no Market Value, such as rots, etc. We are not permitted to pay a straight price for egg receipts. From now on, we will have to pay according to the grade of the eggs. The definitions are as follows:

**Extras**—24 oz. to dozen, reasonably uniform size, air cell less than 1 4 inch; White, firm; Yolk, moderately visible; Shell, sound and clean.

**Firsts**—22½ oz. to dozen; air cell less than 3-8 inch; White, firm; Yolk, may be distinctly visible but moving freely; Shell, sound and reasonably clean.

**Seconds**—Sound in shell, may be weak and watery; Yolks, heavy; and all other eggs fit for food.

It might save disappointment to you if you could, as far as possible, keep out eggs that are very small or dirty, and in fact any eggs which you may consider as inferior. On request, we will get you a Chart showing the regulations under the Dominion Standard. Whilst these new regulations will be troublesome at the beginning, we think in the long run you will benefit financially, and there will be the tendency to improve the market and command an all around better price.

(Signed)

W. COMISAROW,  
H. ENDERS,  
T. J. HARDWICK,  
W. KELLY.

### Sunday's Auto Accident

About 8 p.m. Sunday afternoon a collision occurred between two motor cars, opposite Bell's garage, at the Grove. Mr Joe Cicciarelli of Edson, driving a Pontiac sedan No 83218, was proceeding westward, homeward bound from the City, when Maxwell car No 95662, driven by Albert Moldenhauer, of Mewassin, going east, is said to have bobbed out from the rear of his car ahead, and projected itself in the path of the Pontiac. The impact was severe enough to roll the Pontiac over and over three or four times, it coming to rest in front of Peace church. The driver had his hand cut, the two male passengers got a shaking up, and a young lady Miss M Cicciarelli, received an injury to her limb.

The occupants of the Maxwell were more fortunate, receiving hardly any injuries, but the car's frame is so badly twisted it looks like a total loss. The Pontiac was dragged over to the garage, and its former occupants took the midnight train for home, at Stony Plain.

### Present at the Wedding.

Mr and Mrs Len Ingle, Mr and Mrs Art Ingle, Mr and Mrs John Ingle of Peers (former residents of Stony Plain) were present last week at the wedding in Edmonton of their niece Miss Reta Gordon (daughter of Mr and Mrs W J Gordon). Grandma Ingle accompanied the party, dressed in black silk and wearing a corsage bouquet of ophelia roses. Among the many wedding presents was a silver tea service from the staff at Woodward's, where the bride had been employed.

### Egg Grading.

The new Federal regulations regarding the grading of eggs are now being enforced, and the local merchants, in compliance with these, have opened an egg-grading depository in the Horn building on First St., to where all eggs are being sent in the first instance.

Mr Clarence Lory is in charge at this establishment, and is doing the candling and grading for the local receivers of eggs. Mr Lory is a graduate of Ontario Agricultural College.

### "N. S. F." Checks.

Drastic changes in the Criminal Code will be demanded of the Dominion government by Retail Merchants Ass'n. It is proposed to ask for an amendment to the Code regarding N.S.F. checks, the fixing of responsibility for net weights in merchandise sold in various containers, and several other matters.

## What Is Education?

Educational policies and educational methods are today the subject of world-wide investigation, study and discussion, and particularly so in all English-speaking countries. Perhaps in no previous period has the subject of education received more attention from the masses of the people. To a greater extent than ever before parents are showing a real interest and deep concern. They are in a questioning and questing mood, anxious to know whether accepted policies, systems and methods are productive of the best results.

It is also true that our schools and higher institutions of learning are coming more and more to be met by the taxpayers in the form of education received more attention from the masses of the people. To a greater extent than ever before parents are showing a real interest and deep concern. They are in a questioning and questing mood, anxious to know whether accepted policies, systems and methods are productive of the best results.

The higher standard of living now so universal, as contrasted with thirty, forty, fifty years ago, has the effect of enabling parents to give their children high school and university training to an extent hitherto unknown. Tens of thousands of children now proceed to high school, colleges, and colleges who not so long ago would have completed their academic training when they finished with public school. And the demand is for still greater facilities for secondary education, especially for those resident in rural areas and the smaller hamlets and villages scattered all over the land.

The question arises in the minds of many: Are all these young people being truly educated? Are the thousands of young men and women annually gathering from our universities with the right to add B.A., M.A., and other letters after their names educated in the truest and highest acceptance of the word? Or are they merely equipped with certain tools which many of them do not know how to use for their own advancement and the welfare of the human family?

Dr. George A. Coe, veteran educationist of Northwestern University, and recently retired from Teachers College, is convinced that a good education is education for good living. "What an absurdity it would be to certify as well-educated a youth who has never been socially awakened, well-educated, yet negligible as far as social well-being and social progress are concerned." Dr. Coe presents "ten points" by which a truly educated man can be detected, which are worthy of consideration:

1. An educated man is one who is trained to use the tools of human intercourse with readiness, precision, and accuracy. We mean, especially, language and the rudiments of humor.
2. An educated man must be able to study and to think without guidance from others. He must be to some extent a thinker, not a mere imitator.
3. An educated man must have sufficient knowledge of nature to understand the main processes upon which human life and happiness depend.
4. An educated man knows enough of history to enable him to understand the main achievements of man.
5. An educated man is acquainted with the major resources for intellectual and esthetic enjoyment. He knows nature, literature, music, and the other arts sufficiently to choose superior to inferior enjoyments.
6. An educated man is marked by his interests as well as by his trained abilities. His attention is habitually attracted by significant rather than trivial objects, events, pursuits, and enjoyments.
7. An educated man must have not only this general culture, but also training for a specific occupation. Focalized activity that is directed toward some sort of efficiency has to be included.
8. An educated man must have toward his fellows the habitual attitudes that are commonly called ethical—such attitudes as honor and honesty, helpfulness and good-will and co-operation.
9. An educated man must have loyalties to at least some of the important organizations and institutions of society, such as one's family, one's country, one's church.
10. If there is an inclusive meaning in life, the sort of education that I have been outlining should include some apprehension of, and feeling for, the divine; the ideally educated man will reverence God, and know how to worship.

### Woman Salvages Ships

Mrs. Cox, of Glasgow, Scotland, is believed to be the only woman salvager in the world. She helped raise the German fleet sunk at Scapa Flow, in 1919. In the five years she has aided in raising 26 destroyers and two battle cruisers.

### Poor Year For Tree Seed

The season of 1928 was a poor one for the collection of forest tree seed throughout the western provinces, and orders received by the Forest Service of the Department of the Interior, Ottawa, for seed could be filled only in part.

## To Return German Property In Canada

Gross Value Of Holdings In Dominion About Millions

German property in Canada taken over during the Great War will be returned as a result of The Hague settlement, to which the Dominion is a party.

Thomas Mulvey, K.C., custodian of enemy property, will leave shortly for Berlin to conclude the details of the transfer. The gross value of German property in custody in Canada is said to be approximately \$15,000,000, comprising real estate, bonds and corporate securities.

## India Buys Canadian Grain

### First Shipment To Be Made From

Thirty-two thousand quarters of grain will be shipped from Montreal to India in the near future at a carrying charge of 22s. 6d. per ton, it is announced by Thomas Harding and Sons, agents of the S. S. Zurichmoor. It is believed this will be the first consignment of Canadian grain ever shipped to India. The local agents have not yet been notified of the particular type of grain required.

## WAS ALWAYS AILING NEVER FELT WELL

### Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everett Dowd, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in an ailing condition and found it difficult at all times to do my housework. I was subject to headaches, poor appetite, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help. Where other medicines had failed. But in this, to my joy, I was mistaken. I have been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months, when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills, I would today be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid.

You can get these pills through any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Egg-Marketing Record

New records for the co-operative marketing of eggs in the western provinces have been established for the first eight months of 1929. To August 31, the Canadian Poultry Pool, Limited, the central selling agency for the western provinces, has handled more than 7,000,000 dozen eggs.

The walking speed of the average man is about three miles an hour.

## The Most Beautiful BLACK you have ever seen

"THE most beautiful black you've ever seen!" "All my friends admire my new black silk!" "The coat I thought was hopelessly spotted is now a new, beautiful black!" These are typical comments from women who have used these true, jet black dyes. Diamond Dyes Black never gives cloth a greenish or brassy look, as so many black dyes do. Like Diamond Dyes Red and all the other Diamond colors, it is easy to use and gives such beautiful results because it is rich in pure anilines. It's the anilines in dyes that give them brilliance, depth and fastness; make them go on smoothly and evenly, without

streaking or spotting. And Diamond Dyes contain the highest quality anilines that money can buy. The whole package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or treat silk, wool, cotton, linen, rayon, or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wools. Your dealer has both packages.

Diamond Dyes contain the highest quality anilines money can buy. And it is the life of that coat. They are the life of your dyes; their richness and permanence. color, brilliance and permanence.

### Real English Pantomime

Colossal British Production, "Humpty Dumpty," Coming Soon

Old Country folk who have long craved to see a real English pantomime, and Canadians who have heard so much of these sumptuous musical entertainments from friends will welcome the news that at last a British producer, Mr. Philip Rodway, has had the courage to send one of these colossal productions in "Humpty Dumpty," which will be presented at the Grand Theatre, Regina, for three nights and Wednesday matinee, commencing October 21st.

When "Humpty Dumpty" was presented in Toronto, it was an instantaneous hit which is proven by the following from the Toronto Daily Telegram:

"This season's triumphant march of the British theatre into the hearts of Canadians made notable progress last night when a large audience at the Princess Theatre acclaimed Philip Rodway's presentation of the Birmingham Pantomime Company in the musical pantomime extravaganza, "Humpty Dumpty." A story drawn from fairyland it is, but one that appeals to young and old—a message of good cheer and optimism, with new faces and new songs, diverting, wholesome, fascinating.

"Wee Georgie Wood, of course, is the outstanding star. The diminutive player is a gifted actor exuding personable magnetism with that rare ability to change a crowded scene from meriment to pathos merely by altering the expression of his face or the tone of his voice. He can build up mass interest in some conceit or other till it reaches high, and then crash it down in a heap with a lightning-like flash of irresistible wit. His smile is impish in its compelling good humor. Then, in an instant, he adopts a mask of sadness, and the composite face of all the little boys ever lost in snowstorm tears at the heart-strings of the audience. His part is that of "Humpty Dumpty," a nondescript lad out of a broken egg. Few who see it will forget his classic imitation of a boy in the process of being washed at bedtime by his mother. Later as a Scotch laddie with a dog, his antics are inimitable and his Highland accent, by the way, worthy of Lauder himself. Furthermore, Al. Johnston never knew as well as "Wee Georgie" how to talk to an audience in intimate fashion. It is some feat to get a Toronto theatre singing unaccompanied songs. "Wee Georgie" did it last night at the Princess."

The Oil Of Power. — It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Warden (to prisoner).—"You say you want a key. What in thunder are you going to use it for?"

Inmate—"I want to sleep home at nights—I was only sentenced to 90 days in jail."

For Sprains — Use Minard's Liniment.

### To Exchange Ambassadors

Great Britain Has Entered Into Agreement With Russia

Great Britain and Russia have agreed to an exchange of ambassadors, thus paving the way for full resumption of trade and commercial relations between the two countries. The agreement, which is subject to parliamentary approval in England, was reached in a secret meeting at Lewes, England, between Right Hon. Arthur Henderson, foreign secretary of Great Britain, and Russian ambassador in London, Dornayevsky, who came from his Paris post.

## Acids in Stomach

### Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try taking ZIG-ZAG all digestive aids and instead find relief from your distress. This pleasant stomachic, prevents the formation of excess acid and there is no sourness, gas or pain. Bismuth Magnesia (in powder or tablet form—never liquid or milk), is harmless to the stomach, non-poisonous, and is the most efficient form of magnesia for stomach purposes. It is used by the greatest people who enjoy their meals with no more fear of indigestion.

## Good Agricultural Land To Be Found In H. B. Ry. Area Says Report Of Federal Expert

That the clay belt of Ontario, now one of the new areas attracting thousands of settlers, extends into northern Manitoba, and there is a very large territory of good agricultural land contiguous to the Hudson Bay Railway, are the outstanding features of a report made to the Federal Department of Agriculture by an expert agriculturist, who made an inspection of this section of Manitoba last summer.

The expert, whose name is withheld, but who is an officer in the experimental farms branch of the department, began his survey of the northern territory at Hudson Bay Junction and proceeded as far north along the Hudson Bay road as the contractors would allow him to go. He reports that between the Junction and The Pas, the terrain is wooded and there is no settlement. Neither is there any settlement immediately past the Pas. For the first 42 miles the heavy timber continues with many outcroppings of rocks. He reports large deposits of a class marble in this area. At mile 42, Cormorant, the gardens are numerous and trial plots of wheat, oats and barley were all ripe on August 25 when he inspected them. The stand was excellent and the yield very good. The wheat samples included Garnet, Reward, Ceres, Marquis, and Minden. The stands were from 40 to 48 inches in height. The oat samples were Alaska, Gopher, Banner and Victory. The last two were a poor crop, indicating that these varieties may mature too late to be of utility in the north. The others were a bumper crop and the barley, Trebil and O.A.C. 21, were splendid.

From Cormorant to mile 137, there is much wooded country and the open spaces are rocky and heavily mineralized. At mile 137, however, the clay belt begins. Homesteads are being developed. One homesteader, Hugh Gray, has a farm of 160 acres. Seven acres were planted last spring in garden produce, chiefly potatoes. An additional 20 acres were cleared and are ready for breaking and, forty more will be cleared this winter. The oats on the Gray homestead did very well, and the Irish Cobbler potatoes were the best the investigator had seen anywhere in Manitoba this year. They were absolutely free from all disease. Head cabbage, onions, carrots, beets and other garden produce were extremely good and the corn was passable, despite the fact that it suffered from drought.

The clay soil continues to mile 185, where a resident, named George Cowan, has an excellent flower and vegetable garden. The blooms, the expert reports, were "gorgeous." An extraordinary feature of the development here were fruit trees which appeared to be flourishing. The crab apple and plum trees looked excellent. A good crop of raspberries was being harvested.

The potato yield was splendid and all vegetables appeared to be flourishing, particularly cucumbers. The grain tests made at mile 185 turned out very successfully. Garnet, Reward and Ceres wheats matured excellently; the oats were good, and the barley better.

At mile 214, there are two homesteads and first breaking was done this year. It will not be possible to reach conclusions as to the fertility of this soil until next year. Garden plots, however, were very good.

There was a bumper crop of

vegetables at mile 237. The production included lettuce, onions, peas, beets and potatoes.

At mile 337, the vegetables were excellent, with the exception of cucumbers, which were touched by frost. At this point the expert noticed that the trees were smaller and thinning out while the muskeg was becoming deeper. Rich grasses abounded and indicated a good growing soil. No attempt at general farming has been made either here or further north along the line. The expert was stopped at mile 445, Deer River, and then turned back.

Summarizing the situation, the report states: "From mile 137 to 337, the line passes through the clay belt and there is much good soil not hampered by rock, that, once drained from muskeg, will make good agricultural territory. Most of the mining people think a person is insane who appears in the north country to seek agricultural possibilities. Notwithstanding this lack of faith, I am convinced that when the time comes when this territory is needed for settlement the possibilities are there."

It is added that there is a great opening for dairy farming in this area and that cows are badly needed by those who are beginning to farm.

### "Mountie" Likes Arctic

Sergeant Anderson, Home On Furlough, Says It Is Only Life

Sgt. J. Anderson, of the Royal Canadian Mounted Police, is spending his first furlough out of the Arctic in nine years. He arrived at Vancouver on the police schooner St. Roch, which has been following the line of her duty from Herschel Island east to Cambridge Bay for the past fifteen months.

Sergeant Anderson has spent altogether 17 years in the Arctic service. He said he would go back. "It's the only life," he declared. "It gives you plenty of freedom, lots of amusement and a good outdoor existence."

The St. Roch is a two-masted auxiliary schooner, 90 feet long, built for the Royal Canadian Mounted Police Arctic Service.

A woman who suffers untold agony is an exception to the rule.

BERTRAM S. SMITH

Superintendent, Colonization Construction Branch, Canadian Pacific Railway. Of the 23 years during which Mr. Smith has been connected with the railway, 18 have been spent in farm development work. Of the buildings erected on 1500 improved farms that the company has developed in this period, ninety-five per cent. have been under his supervision. The Colonization Construction Branch this year has charge of the construction of cottages under the scheme in operation between the Overseas Settlement Committee of the British Government and the Department of Colonization and Development, Canadian Pacific Railway.

### Grain For The Orient

Bulk Of Peace River Exportable Surplus Going To East

Preliminary estimates place the 1929 exportable surplus of the Peace River wheat crop at 16,000,000 bushels, and it is believed that a large percentage of this will be shipped to Oriental markets via Pacific Coast ports. Naoki Iwasaki, representative of a Japanese flour mill company, recently visited the Peace River country and it is intimated that his company will make large purchases from several companies operating elevators in the northern district. Mr. Iwasaki's company purchases annually about 15,000,000 bushels of wheat and operates 12 mills in Japan.

### Finds Imprint Of Large Foot

The imprint in stone of an enormous human foot, indicating a type of prehistoric man of which no trace has hitherto been found, was claimed to have been discovered near the Limpopo River, by an Italian scientific expedition. Beside indications that the man must have been of huge stature, indications were present of several ape-like characteristics.

## Spread Of English Language Since Close Of Great War Presents Interesting Phenomenon

One of the most arresting phenomena of these times is the spread of the English language, particularly since the great war. At present English is the current tongue of some two hundred millions of people. With the rapid expansion of the United States, as well as that of our own Dominions and Dependencies, its overwhelming domination seems assured within a few decades."

In Northern, Central and South-Eastern Europe parents are clamoring to have their children taught English, often with an eye to future emigration. The same may be said of Japan. In India with its scores of dialects, English is becoming a

means of communication between widely diverse races, and the culture of young China is being drawn largely from American sources, with the English language as the medium.

In view, therefore, of its grandiose future, it is not time for something to be done to stabilize its development. At the moment, English is being developed from two distinct sources—the one in the birthplace of the language, the other in the Western Hemisphere, where it is the unifying factor in a nation composed of a score of nationalities. Now it is inevitable that in course of time the English of Great Britain, and that of America shall diverge. The very individual of each of these two great nations alone ensures this.

Again, the factors of racial origin, climatic conditions and general environment will have their effect in producing independent lingual idiosyncrasies in America and here, though, as the result of closer contact, due to improved means of communication these influences will be modified.

Little harm, however, will result from these minor divergences. The culture of the British Isles has not suffered greatly from the fact that the Wigan collier and the Sussex herdsman would find some difficulty in exchanging their views of life.

What would prove disastrous would be any important divergence in the written language, the language of culture. So far the divergences are scarcely worth attention. Read an article in any of the leading American reviews and you will see little difference in the phraseology from that to be found in an equivalent article in one of our own reviews. And in the regions of science, belles-lettres, and philosophy it needs an expert to decide from the language in which a book is written whether the author dwells by the banks of the Thames or the Hudson.

Yet there is a distinction. Here and there one may note innovations and mutations in the writings of American authors that reveal a development in which we are not taking part.

Such things as "aluminum" for "aluminium," the pronunciation of "schedule" as "skedule"—etymologically correct—the use of "so" instead of "so that," the rapid supersession of "shall" by "will" in all circumstances, and the greater tendency to incorporate slangish phrases are but a few of the American practices that serve to irritate the purist on this side.

Yet languages are a living growth. They move with the age. English can be no exception. Therefore, as nobody desires that there shall be two more or less distinct languages a few hundred years hence, Britain and America ought to join forces to avert this menace if it is contemplated.

It is suggesting that a body bearing such name as "The English-Speaking Academy" should be created. It might very well consist of a committee of cultured men from British and American universities, with a sprinkling of well-known authors.

This committee would hold conferences at intervals and come to an agreement about what should be considered good English and issue authoritative instructions for the guidance of teachers and the authors of grammars.

In this way inevitable changes in the languages could be regulated and there would be established a certain standard English to which, in matters of culture, the whole English-speaking world would conform.—A. F. Garland in London Daily Express

### DISPLAYS SPANISH NOTE

A captivating new model that is gaining more and more popularity every day in fashionable circles is illustrated in petunia purple canton crepe. The scarf tie that falls nonchalantly over shoulder shows smart trimming in sheer velvet in three blending shades of same colour, which appears again in deep cut treatment.

The surprise closing bodice terminates at left hip caught with huge crystal buckle, creating a swathed effect across front. The unusual flare of skirt, placed low at back so as to retain flat hips, with draped treatment at left-side front, provides flattering fulness when wearer moves.

Style No. 714 is designed in sizes 16, 18, 20 years, 22, 24, 26, 28, 30 and 32 inches bust.

This slenderizing dress with modified Princess lines is easily made—the saving enormous. It's very effective and serviceable in black crepe satin, canton crepe in bottle green with matching sheer velvet trim, rayon crepe in dark brown background printed in capri tone, claret red and silk crepe, army blue crepe de chine with white crepe scarf tie, black sheer velvet and printed sheer velvet in burgundy tones.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

The photographs here show three prominent in the ladies' open golf championship matches at Anacostia golf course, Hamilton. They are: (1) Miss Dora Virtue, Montreal; (2) Mrs. B. P. Belleng, Winnipeg, who defeated Miss Ada Mackenzie, and (3) Miss Virginia Wilson, Chicago, who failed to retain her title.

Rescuing Skipper: "Didn't you have any provisions?" Fisherman: "Yes, but we drank them before the wind got up."—Smith's Weekly, Sydney.

Public  
DangerCaught Disease  
On the HANDS!

Skin disease threatens us every day. Invisible germs of blood-poison, eczema, etc., are waiting to infect the least cut or sore place. The money you use carries germs—you get them on the handles, rails and straps of the train and street cars, and in a score of other ways.

Solely through Zambak, Mr. Henry C. Davis of South 17th Street, Kansas City, U.S.A., has just escaped a virulent type of eczema, contracted, he suspects, through use of public towels.

"I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zambak treatment soon gave positive results. It took away the painful irritation and quickly purified and healed the deep troublesome sores."

WORLD HAPPENINGS  
BRIEFLY TOLD

The National Research Council has been asked to appoint an associate committee on weed control research.

The Earl of Harrowood, father-in-law of Princess Mary, died at his ancestral estate, October 6. He was 83 years old.

Admiral Sir Richard Phillimore, first and principal naval aide de camp to His Majesty, has been placed on the retired list. Vice-Admiral Sir H. W. Richmond is promoted admiral.

Lady Schultz, wife of the late Sir John Christian Schultz, former Lieutenant-Governor of Manitoba, and Senator, died October 7, at Winnipeg.

R. B. Morley, general manager of the Industrial Accident Prevention Association, Toronto, was elected Canadian representative on the executive committee of the National Safety Council at Chicago.

Canada and the other British Dominions will be represented at the proposed five-power naval disarmament conference in London, England, next January, according to present plans.

Dr. Miller's Worm Powders needed the support of testimonials they could get from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

The tulip tree of the Great Smoky Mountains has no relative in America, and only one elsewhere in the world—in far-away western China.

As a verminiferous effective preparation is Mother's Own Worm Extremator, and it can be given to the most delicate child without fear of injury to the constitution.

Surplus oil, for which there is insufficient storage, can be pumped back into the earth to remain there for future use.

Children's  
Colds  
Best Treated  
Externally

That's why modern mothers prefer Vicks—It cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;

(2) It "draws out" the soreness like an old-fashioned poultice.

acts 2 ways at once

## X-Ray in New Role

Is Aid To Manufacturing and Notably in Aviation

The X-ray, an instrument of physicians and surgeons, has become a tool of the foundry room, and its benefits to the metal industry have been of considerable aid to manufacturing, notably in aviation, according to the statements of W. L. Fink, metallurgist, before the National Metals Congress at Cleveland.

The photographs of the X-ray show shrinkage, blow holes, pin holes porosity and other imperfections in castings which never would be discovered by other means of examination, he asserted. As a consequence, the metal frames of airplanes can be thoroughly tested before construction of the plane is completed, a safety device that would be available in no other way.

By the same means castings generally have been improved, Fink declared.

DO NOT NEGLECT  
YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood.

The little ones come quickly, and unless the mother is prompt in administering treatment a precious little life may be sacrificed. It is before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found, through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand—why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach, banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concomitantly, Mrs. Isaac Smith, St. Eugene, Ont., writes:—"I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Test Was Successful

Value Of Instruments To Overcome Perils Of Flying Through Fog Is Proved

Completion of the first airplane flight with a cockpit entirely shut off from light was announced by Harry P. Guggenheim, president of the Daniel P. Guggenheim Foundation for the promotion of Aeronautics, as the most successful test of a group of instruments designed to overcome the perils of flying through fog.

Lieut. James H. Doolittle, seated in the darkened cockpit, took off from Mitchell Field and flew along the path of a directing radio beacon to a safe landing.

## Praise For British Diplomacy

Proposals To Egypt Marvel Of Tact, Says American Paper

The Chicago Tribune says: "The British proposals to Egypt reveal British diplomacy and Imperial statesmanship at their best, and that is the best in the world. Americans must read them with admiration mingled with envy, for when will the United States in its important and often delicate relations have the benefit of so much tact, skill, and sane judgment as Mr. Henderson's proposals display?"

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Doctor (to patient's landlady): "Just keep him in bed, and above all see that he does not eat too much." Sea-side Landlady (grinily): "Certainly I will; I have two or three other boarders who really ought to be in bed, too."

Minard's Liniment For Warts.

## SUNDAY SCHOOL LESSON

OCTOBER 20

## USEFUL WORK A CHRISTIAN DUTY

Golden Text: "If any will not work, neither let him eat."—2 Thessalonians 3:10.

Lesson: Genesis 2:15; Exodus 20:9; Nehemiah 6:3; John 5:17; 9:4; Acts 20:33-35; 2 Thessalonians 3:6-12; Ephesians 4:28.

Devotional Reading: Psalm 81-9.

## Explanations and Comments

God Ordained Work, Genesis 2:15.—In the story of the Garden of Eden, we are told that God placed man there to cultivate and care for it. The work was waiting for him.

"With the Christian conception of God, we cannot believe that work has been made a human necessity merely to supply the body with food and other material things. With one creative word God could have run the material needs of all mankind and for all time. The word was not spoken, because character and intelligence were meant to be the fruits of labor, and material things by-products. This is shown by the moral and intellectual evils which follow and degrade those who yield to absolute idleness."

Man Must Work, Exodus 20:9.—We think of the Fourth Commandment as directing the keeping of the Sabbath, but it also tells us that it is at its highest in those lands where the climate is most productive to labor. Where work is declined, evil must be accepted."—Thomas Tip-lady.

Man Must Work, Exodus 20:9.—We think of the Fourth Commandment as directing the keeping of the Sabbath, but it also tells us that it is at its highest in those lands where the climate is most productive to labor. Where work is declined, evil must be accepted."—Thomas Tip-lady.

"No man is born into the world whose work is not born with him. There is always work. And tools to work withal, for 'blessed are the horny hands of toil.'"—Lowell.

The Prior Importance Of Work, Nehemiah 6:3.—Four times Nehemiah's enemies, Sanballat and Geshem, sent an urgent request to him to meet them for a conference on the Plains of Ono. That they wished to do him harm, was plain. Of course Nehemiah could not be so easily duped, but what a great answer was his: "I am doing a great work, so that I cannot come down; why should the work cease (as it undoubtedly would without his directing, impelling power), while I leave it and come down to you?" His answer would have been the same had the invitation been for pleasure or his own advantage in any way. He stood in the path of duty, and therefore in the very line of God's will, and would not budge an inch. The greatness, the overwhelming importance of his work of rebuilding the walls of Jerusalem, the priority of its demands to all things else, filled his mind and heart.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Her Father.—You have been a very naughty girl and I'm going to spank you.

Little Elsie.—Would you strike a lady?

From Mother  
of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

Mrs. Milton McMullen, Vancouver, Ontario.

Lydia E. Pinkham's Vegetable Compound

In the best package—Clean, bright aluminum

## New Cure For Paralysis

English Doctor Says Induced Malaria Has Been Tried Out Successfully

Induced malaria as a successful treatment of paralysis, is revealed in a recent report of Surgeon Rear Admiral E. T. Meagher, covering experiments on a number of cases in English and Welsh hospitals.

"The treatment of general paralysis," his report states, "by induced malaria, offers more promise of success than any other form of treatment that has been given extended trial."

The treatment, which includes either artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state.

"The response in individual cases," he states, "varies from a negative result to apparent complete recovery."

A Severe Attack of  
Dysentery  
Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes:—"My wife, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use

On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it. "A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 80 years; put up only by The T. Millburn Co., Ltd., Toronto, Ont."

## An Easily Made Dessert

Caramel Pudding, one of the most delicious desserts one can serve, and one especially loved by children, can be said practically to make itself. Here it is:

Place an unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats and whipped cream—or use plain unweetened cream, with or without garnish.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

## Unique Clock Is Success

Having run without being wound for a year, the weather clock at Zurich, Switzerland, has been declared a success. In the 12 months it has kept perfect time. It has no apparent source of power, but is run by the variation of temperature, a two-degree change setting the thermometer-like mechanism in motion to wind it without human attention.

Never judge a man by his actions when he is away from home.

Minard's Liniment For Neuritis.

You Must  
Have Sugar

Sugar is one of the much needed elements in a balanced diet.

WRIGLEY'S supplies sugar in a convenient way. The flavor is an extra delight.

Then too—you know you aren't adding weight. Sugar is a fuel that burns up needless fat.

## Pleased With Canadian Hospitality

British Delegation To Institute Of Pacific Relations Show Appreciation

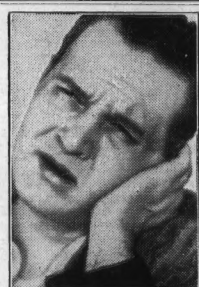

In a telegram from Victoria, B.C., where they took the boat for Japan, the British delegation to the Institute of Pacific Relations, wired Premier Mackenzie King an appreciation of Canadian hospitality. The delegation crossed Canada en route to Kyoto.

The message, signed by Lord Hailsham, Lord Chancellor of England and head of the delegation to the Institute of Pacific Relations, said: "I desire to express to you, and through you to the people of Canada, our most cordial thanks for the magnificent hospitality extended to us in our journey across the Dominion."

Premier King replied: "I thank you warmly for your kind message, extend best of wishes to each member of the British and Canadian delegations."

Teacher: "What is the little boy called who has never known a mother's care?"

Small Boy: "An incubator kid, ma'am."

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find precise directions with which everyone should be familiar, for they can spare much needless suffering.

**ASPIRIN**  
Aspirin is a Trademark Registered in Canada

## MACDONALD VISIT WILL RESULT IN LASTING BENEFIT

Washington.—"We do hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent, as a substantial contribution to the efforts universally made by all nations to gain security for peace—not by military organizations—but by peaceful means, forced by the people and enforced by a sense of justice in the civilized world."

These are the concluding words of a joint statement issued by the prime minister of Great Britain and the president of the United States.

The statement declared the governments of Great Britain and the United States accepted the peace pact of Paris as not only a declaration of good intentions, but a positive obligation to direct national policy in accordance with the pledge to renounce war as an instrument of national policy. As a result of this attitude, historic problems might be approached from a new angle, for conflicts between military forces could not take place.

The prime minister and president therefore agreed those questions should become the subject of active consideration, and conversations between the two, and the president began in the same method as was pursued in the naval disarmament discussion of this summer.

The statement asserted the naval conversations had brought the governments so close together that obstacles in previous conferences arising out of Anglo-American disagreements, now seem substantially removed. But agreement could not be completed without the co-operation of the other naval powers. Both the prime minister and the president felt confident such mutual understandings would be reported as would make an agreement next January possible.

"In view of the security offered by the peace pact, we have been able to end, we trust forever, all competitive building between ourselves, with the risk of war and waste of public money involved, by agreeing to parity of fleets, category by category," the statement said.

Conversations of the most private and free nature between J. Ramsay MacDonald and Herbert Hoover, extending over a period of five days, ended with the issuance of the statement, and after having inaugurated what may become the custom of word of mouth communication between the heads of the British and American peoples.

Incidentally Mr. MacDonald has gained for himself a great personal triumph in Washington and through out the United States, to which triumph his daughter, Isabel, has contributed not a little.

The profound, the immense, value, which no observer here doubts attaches to the unprecedented conference of the prime minister with the president, is suggested in the final sentence of the joint statement: "We hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent," and the more tangible substance of that value seems to lie in the announcement that in the new atmosphere created by the peace pact, discussions of historic problems between the two nations will be begun.

Throughout the visit of the prime minister to Washington he has continually laid emphasis upon the Paris pact, referring to it in his senate address as a "monument in history."

It is now proposed in the circumstances of war being declared "unthinkable" and the assumption that war is banished, to go forward toward the solution of problems "involving important technical matters requiring detailed study," thus making the pact not only a promise, but at the same time a background and motive force in international politics.

### Wedding Is Postponed

Denver, Colo.—The Denver Post says that the wedding of Henry Bradley Martin, Jr., and Valerie French, granddaughter of the late Field Marshal French, England, has been postponed for one year.

W. N. U. 1807

## Defends Bishop Lloyd

Saskatchewan Premier Commends Work Of Anglican Clergy

Saskatoon.—A defence of the immigration work of Bishop G. Exton Lloyd, plans for more educational facilities in the province, the establishing of an office in England to encourage a greater influx of British immigrants, and an attack on Peter Veregin, Doukhobor leader, featured an address by Premier J. T. M. Anderson to visiting clergy, graduates and students of Emmanuel College here. The occasion was part of the third day's program of the Anglican College's jubilee.

During his luncheon address Dr. Anderson lauded the important and valuable work of the clergy in the progress and welfare of the province, especially during the pioneering days of the West.

The Premier was introduced by Bishop Lloyd who welcomed him as a churchman, Premier and "straight man." He spoke principally on the educational problems confronting the government of the province at the present time and pointed to the great work yet to be done. He lauded the work of the La Crosse and Cumberland areas particularly. He said it was possible schools would be established there in the near future.

## Grain Board Assistants

Appointments Announced Of Three Representatives For Manitoba, Saskatchewan and Alberta

Ottawa.—The three assistant grain commissioners appointed under the amended provisions of the Canadian Grain Act were announced this afternoon by Hon. James Macdonald, Minister of Trade and Commerce, as follows:

Manitoba—Professor T. J. Harrison, Manitoba Agricultural College.

Saskatchewan—Hon. R. S. Dundas, of Pelly, Sask.

Alberta—W. H. Blackford, Calgary. The above appointments were made by the cabinet on the recommendation of the Board of Grain Commissioners.

The appointments are in pursuance of amendments made to the Canadian Grain Act at the last session of Parliament following an extensive investigation by the standing committee on agriculture and colonization.

The commissioners of the board appointed some time ago consist of E. B. Ramsay (chief commissioner), Hon. C. M. Hamilton and Dr. D. A. MacGibbon.

## Large Increase In Federal Income Tax

Yukon Only District Not Ahead Of Last Year

Montreal.—Collections of the Federal Income Tax for the six months ended September 30 last, totalled \$65,020,680, an increase of about 20 per cent. over the same period last year when collections were \$52,972,358, says a special despatch from Ottawa, published in the Montreal Gazette. Figures were made public by Hon. W. D. Euler, Minister of National Revenue. All collections districts in the Dominion with the exception of Yukon showed an increase.

### Afghan Minister Expelled

London, England.—Shuja Ed Dowlat, Afghan minister at London, who remained at the legation here after the downfall of his king, Amanullah, has been expelled from Great Britain. Some morning papers said the expulsion took place eight weeks ago and said it was for "impersonal reasons."

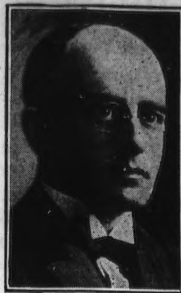

### Will Make Four Speeches

Washington.—The speeches will be delivered by Prime Minister Ramsay MacDonald during the course of his Canadian trip. The Premier is planning to speak in the cities of Toronto, Ottawa, Montreal and Quebec. From Quebec, he sails for England on October 25.

### Pensions Too Late

London, Ont.—Six aged London men and women whose applications for old age pensions had been approved and who were scheduled to receive payments beginning November 1, have died since their cases were passed upon.

## MAY BECOME QUEBEC CHIEF JUSTICE

Hon. Lucien Cannon, solicitor general in the King ministry, who, according to rumors circulated in Liberal circles, is in line for chief justiceship of the province of Quebec.

## Plane Was Wrecked In Forced Landing

Missionary and Family With Pilot Narrowly Escape Death

Prince Albert.—Missing for three days in the north country, the aeroplane carrying Pilot Alva Malone, a missionary, and his family, was discovered a mass of wreckage near Lac la Ronge, Sask. It was disclosed that the machine was damaged beyond repair, when a forced landing was followed by a crash and the passengers narrowly missed death.

Pilot Malone reached Lac la Ronge after walking from the scene of the mishap. The missionary, Rev. W. N. Fisher, en route with his wife and two children to take over the Anglican mission at Lac la Ronge, decided to continue their journey by canoe.

## Making Tour Through West

Premier King Plans To Speak Twice In Each Province

Ottawa, Ont.—Premier King visits Western Canada this autumn. He will traverse both the northern and southern routes across the prairies and British Columbia, going westward to Prince Rupert, down to Vancouver and Victoria, and returning through the southern routes. He expects to make two speeches in each province.

Mr. King will be accompanied on the tour by Senator Andrew Haydon, Colonel The Hon. J. A. Ralston, Minister of National Defence, who will be in the west at the same time, will join the Prime Minister at several points where public appearances are to be made.

## Service Will Start On December First

Prairies To Have Air Mail Within Six Weeks

Ottawa.—The extension of the air mail service on the prairie beginning December 1 is a step toward a national service. Mail trains will carry the heavy mail while first class mail will be carried by planes.

Beacons will be installed at Regina, Saskatoon, Edmonton, Calgary and Banff next month. When service is in full operation eighteen hours will be out in time from Vancouver to Montreal, and twenty-four hours from Montreal to Vancouver. The disparity in time of the eastern and western service will be due to train connection required in the picking up of the mail. Air mail service down the McKenzie River will start about October 27, and will be twice a week from Edmonton as far north as Aklavik.

With the close of navigation on the St. Lawrence, the winter air service on the north shore of the St. Lawrence will begin. Another service to start with the close of navigation is from Leamington to Pile Island.

## No Invitation Received

Canada Not Formally Asked To Attend Naval Conference

Ottawa, Ont.—Canada has received no formal invitation to attend the five-power naval disarmament conference in London, next January, Premier King states. Preliminary correspondence on the subject showed that the dominions would be welcome to participate directly in the parity, but there had been no definite invitation. The Premier said he would consider the question of Canada's representation when a definite invitation is received. Asked if he would go himself, he replied that he thought that would be unlikely. It was too near the opening of the Dominion Parliament, he pointed out.

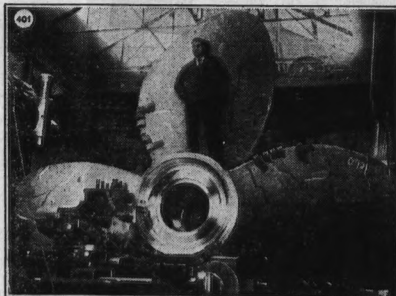

## Canadian Drowned In South

Vancouver Men Lose Lives At Long Beach, California

Long Beach, Calif.—Two men, visitors here from Vancouver, B.C., were drowned in a rough sea running off the beach. They were Chester Palmer, railroad engineer, and A. McPhee, a Canadian Government locomotive inspector.

Identification was made by Joseph McCracker, Los Angeles, who accompanied them to the beach. Palmer and McPhee were swept beyond the depth by an exceptionally large wave. Their bodies were recovered within a few minutes, but efforts to revive them failed.

## World's Largest Bronze Propeller

All in one piece—four blades, and best—the propeller is poured above in the process of manufacture is the world's largest bronze propeller. It has just been made in the Charlton Works of J. Stone & Co., Ltd., for the new Canadian Pacific liner "Empress of Japan," which will take up service between Canada and the Orient next July.

More than 35 tons of special bronze was used in casting this "wheel," which is over 20 ft. in diameter. There are two of these on the new 29,000-ton vessel. They will absorb 15,000 shaft horse power each and will drive the liner at a speed of 21 knots.

A strange feature of their manufacture is that the bronze is poured into the molds from below, thus ensuring perfect metal in all parts. After the casting has cooled and the molds have been removed the enormous screw is turned on a lathe and then placed in a special machine that keeps its pitch accurate.

The "Empress of Japan" for which this propeller was made will be 662 feet long, will have a breadth of 83½ feet and all of this will be sent through the water at a speed of 21 knots by two propellers weighing 20 tons apiece.

## LITTLE DEMAND FOR WHEAT FOR SOME TIME YET

Winnipeg.—At least six weeks must elapse before there is increased demand from European buyers for North American wheat according to a report issued by E. A. Ursell, statistician to the Board of Grain Commissioners, Fort William.

An optimistic note concerning the present serious grain storage situation at head of the lakes ports, however, is contained in Mr. Ursell's statement, received here from Fort William. He points to the increasing movement down the lakes, and forecasts that shipments from prairie points can be handled at lake head ports without more serious congestion, provided the present movement is continued. He also points to the additional storage capacity provided at Georgian Bay ports this fall.

Toronto.—No immediate solution was seen of the present grain congestion situation by Sir Henry Thornton, president and chairman of the Canadian National Railways, he said, in an interview here.

"I know that it will cause a very substantial reduction in our net earnings, and this is upsetting after our starting off with such bright hopes of a banner year," Sir Henry said.

"There must be a compromise of some kind soon," he said, "one side is bound to crack."

"I hope the farmers get plenty for their wheat," he said, "but I hope something happens soon to relieve this situation."

## Doukhobors Flocking To New Settlement

Radicals Joining Sons Of Freedom At Porto Rico, B.C.

Victoria.—Information reaching Victoria is to the effect that radical Doukhobors are drifting into British Columbia from Saskatchewan, and the United States, and have swelled the Sons of Freedom at Porto Rico, some 18 miles from Nelson, from 150 to 400 persons. Premier S. F. Tolmie said he was seeking the co-operation of the Federal Government in restraining this movement.

At the same time, Premier Tolmie received a telegram from Independent Doukhobors of Thrums and Castlegar, who declared that their brethren at Porto Rico were excited, short of food and facing serious privation. To them the premier replied that the Sons of Freedom at Porto Rico were in no sense excited, that they would return to their former homes or work as they pleased, if they obeyed the laws of the country.

"They are not under any restrictions which do not apply to all citizens of the province," he said. "If unusual cases of privation exist we are prepared to relieve them, but we do not propose to countenance any violation of the laws of this country," the premier stated.

## Sea Monster Reappears

Has Been Seen Again In Cowichan Lake, B.C.

Cowichan Lake, B.C.—Appearance of a "great headless monster" in the placid waters of Cowichan Lake recently has been reported here and the story is received with mingled terror and curiosity. Several search parties have been sent out to verify the original chronicle brought in by James Thomas, of Riverside, who claims that he saw the creature while cruising in his powerboat.

Several months ago a visiting doctor reported having seen a sea serpent in Cowichan Lake and was jeered. The creature reported by the doctor has evidently reappeared.

### B.C. Pioneer Dead

New Westminster, B.C.—Charles George Major, 86, resident of British Columbia for 70 years, and a pioneer link with the Cariboo gold rush days, died at his home here. Mr. Major drove the first stage coach over the Cariboo highway during the hectic days of the gold rush. Later he became official administrator for the county of New Westminster.

**SEALED TENDERS** addressed to  
the undersigned and endorsed  
"Tender for new Federal Building,  
Camrose, Alberta," will be re-  
ceived until 12 o'clock noon, Tues-  
day, October 29, 1929, for the con-  
struction of a new Federal Building  
at Camrose, Alberta.

Plans and specification can be seen  
and forms of tender obtained at the  
office of the Chief Architect, Depart-  
ment of Public Works, Ottawa,  
the Resident Architect, Asst. Receiver  
General's Bldg., Calgary, Alta., the  
Postmaster, Camrose, Alberta, and  
Frank P. Morris, Architect, 12112

—100th Avenue, Edmonton, Alta.  
Bids must be submitted at the  
office of the Chief Architect, Depart-  
ment of Public Works, by depositing  
an accepted bank cheque, payable to  
the order of the Minister of Public  
Works which will be returned if the  
tendering bidder submits a regular bid.  
Tenders will not be considered un-  
less made on the forms supplied by  
the Department and in accordance  
with the conditions set forth therein.

Each tender must be accompanied  
by an accepted cheque on a chartered  
bank payable to the order of the  
Minister of Public Works, equal to 10  
p.c. of the amount of the tender.  
Bonds of the Dominion of Canada or  
bonds of the Canadian National Rail-  
way Company will also be accepted as  
security, or bonds and a cheque if re-  
quired to make up an odd amount.

By order,  
**S. E. O'BRIEN,**  
Secretary.

#### NOTICE.

IN THE ESTATE OF JOSEPH M.  
KULLANDER, late of Stony Plain  
in the Province of Alberta, Farmer,  
deceased.

NOTICE IS HEREBY GIVEN that  
all persons having claims upon the  
Estate of the above named Joseph M.  
Kullander, who died on the 27th  
day of May, A. D. 1929, are required  
to file with the undersigned, Solicitor  
for the Administrator of his estate,  
by the twenty-fourth day of No-  
vember, A. D. 1929, a full statement  
fully verified of their claims and of  
any securities held by them, and that  
after that date the Administrator  
will distribute the assets of the said  
estate among the parties entitled  
thereto having regard only to the  
claims of which notice has been so  
filed or which shall have been brought  
to her knowledge.

## Here and There

(400)  
The Canadian Chambers of Com-  
merce, who have been making a tour  
of western Canada, has returned  
its previous stand in favor of a con-  
tinuance of assisted emigration of  
selected British settlers of a desir-  
able type. A report of the na-  
tional committee on Immigration,  
under the chairmanship of George  
W. Allen, K.C., of Winnipeg, which  
has made an exhaustive survey of  
the subject, has been presented and  
accepted.

Expressing the firm conviction  
that China was desirous of obtain-  
ing foreign capital and that it held  
no sympathy for Bolshevism, Taun-  
Chai, one of the Chinese delegates  
to the recent International Postal  
Congress at Geneva, reached Que-  
bec recently on S.S. Empress of  
Scotland, en route for Shanghai.

Back from a six weeks' inspec-  
tion trip in the United States and  
western Canada, W. R. MacInnes,  
Vice-President, and George Ste-  
phen, Freight Traffic Manager,  
Canadian Pacific Railway, said that  
tourist traffic to Vancouver, Victo-  
ria and the Rockies showed very  
satisfactory increases this year.  
They emphasized that the season  
feeling of pessimism in the Prairie  
Provinces.

It is expected that His Majesty  
King George, or His Royal High-  
ness Prince of Wales, will an-  
nounce the Vimy War Memorial in  
1932, stated Brigadier-General T. H.  
Huxford, of Victoria, chief engineer  
of the Canadian Battlefields Mem-  
orial Commission in France and Bel-  
gium: interviewed on S.S. Mont-  
real on his arrival in Canada re-  
cently.

"We manufacture 15 million  
pieces of toffee per day in Great  
Britain, but not enough of it comes  
into Canada and we are seriously  
considering the opening of a Cana-  
dian factory to cater direct to the  
Canadian people," said Sir Harry  
MacIntosh, head of the famous  
British candy firm of the same  
name, interviewed on his arrival  
aboard S.S. Duchess of Bedford at  
Quebec recently.

One of the most beautiful and  
costly displays in the recent Ex-  
hibition at Toronto was the ex-  
quisite diamond replicas of the lat-  
est Canadian Pacific Hotel, the  
Royal York in Toronto. To build  
this unique miniature which was  
valued at over \$300,000, more  
than 15,000 Ellis fashioned quality  
diamonds were utilized. These  
were mounted on a framework of  
satin wood covered with the finest  
wax. The miniature was drawn  
true to scale and measured 15  
inches high by 12 inches broad.

The farm of James H. Walker, at  
Raymond, Alberta, of which 79  
acres were sown in wheat for wheat,  
yielded 2800 bushels of 40 bushels  
to the acre, says D. L. Lethbridge  
Herald. This particular crop was  
produced on a summer fallow field.  
The farm is diversified and rotated.  
Sugar beets do well on it and  
there is a flock of 2000 sheep to  
help keep it in shape.

In a summary of the wheat sit-  
uation the Manitoba Free Press  
points out that wheat is trading at  
which this year as to offset to a  
considerable degree the shortage in  
"Western Canadian wheat."  
It says, "has never crashed  
so high in many years. The pro-  
duct of the country in wheat has  
checked at the highest that the  
West has known since the practice  
of testing for protein was inaugu-  
rated."

## The Singing Fool

By HUBERT DAIL

Copyright, 1922, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes interested in John Perry, Al's close friend, and one night she tells Al she has ceased to love him. Al refuses to believe it, but when Molly fails to show up for a New Year's Eve celebration at the Club Bombo, where Al is part owner, he rushes home to find she has packed up and left, taking Junior. She leaves a note suggesting that she loves John Perry and that Al need not try to persuade her to come back.

### CHAPTER XVII.

"This is Mr. Stone. Is the car in?"  
"No, Mr. Stone," came the answer.  
"Mrs. Stone took it out."  
"When?"

"Tonight, about an hour ago. She said she might not be back for several days."

"Was my baby with her?"  
"Yes, sir, and a gentleman."

"I see. Thank you."  
Al had struggled hard to keep his voice calm. He didn't want to ask too many questions; that would excite the suspicion of the garage people and Molly's flight might get into the newspapers.

He walked to the nursery window; down below he could see the crowds in black masses still moving, sloughing up and down the sidewalks, welcoming the glad new year. He shook his head—no, there wasn't a chance of finding Molly tonight. He couldn't call the police because there was no definite charge he could make against her. Besides, it wouldn't be the thing to do; it would mean publicity and ghastly scandal that would involve his baby. Al thought his rage had passed now and that he was thinking clearly. He went to the doorway and heard the mad pattering about in his little back room.

"Celeste?"  
"Yes, sir."  
"If you haven't gone to bed will you step here a moment?"  
"What time did Mrs. Stone leave?"

"A little over an hour ago."  
"Ah. She and Junior were alone?"

"Yes, sir."  
So John Perry had waited for her outside, thought Al.

"She didn't say how long she would be gone?"  
"She just said she would be gone a long time and that everything was explained in the letter to you."

Al saw from the girl's expression that she had some idea of the purpose of Molly's hasty flight.

"Celeste, I want to ask you something. Please don't say anything to anyone about Mrs. Stone's departure."

"Yes, sir, I understand. I—I feel very sorry."

"Don't worry. And Celeste—I'll remain at the apartment for a time, at any rate. You needn't worry about your position."

"Yes, sir, thank you. Goodnight, sir."

When the maid disappeared Al entered Molly's room. He had believed himself calm when he talked to Celeste, but now he realized that he had been merely numbed by the sense of his tragedy. He was trying to plan, trying to read the future, while at the same time searing thoughts were burning him up. At one moment he raged inwardly against the heartless cruelty and contemptible deception of Molly and Perry, but the next instant he was on the verge of tears at the thought of losing Junior.

Where was he? Oh, yes, in Molly's room—the light aroma of her perfume filled the air. There was her sumptuous bed, with the high posts and costly coverlet of lace over pink satin. Here was her dressing table, with empty cosmetic jars and bottles strewn about. The drawers of the dresser were pulled out here, too, showing the same evidence of hurried packing as the nursery.

He quickly staggered out and sought the nursery again. Without thinking, he picked up Junior's woolly dog, holding it in his hand as he paced up and down. What would Molly be likely to do in her flight, where would she be likely to go? These were hopeless questions and Al knew it. She would very likely place herself in John Perry's hands and Al could not read that inscrutable mind.

Then he became aware that he was clutching at Junior's toy dog like the proverbial drowning man grasping at the straw. It was his one link with his curly-haired boy; wherever Junior was he would sooner or later be calling for his favorite toy. He might be crying for it at this moment.

The thought brought Al to a stand-still; he sank into the nearest chair and looked around. If Molly's room spoke eloquently of her recent presence this nursery was fairly alive with the feeling

of Junior. The fairy tale pictures on the wall and the tiny bright blue chairs brought up pictures, adorable memories of Al's little loved one, who had made these walls ring with his chatter and laughter. Suddenly Al turned the face of the woolly dog toward him and its shoe-button eyes stared down at him as if eternally questioning—Where was his little master? Al slumped down in his chair, breaking under the strain, his shoulders twitching convulsively as he sobbed.

But this lasted only a moment; he quickly pulled himself together and stood up. He had told Celeste he would stay on in the apartment, but he could not bear to face this empty room day after day? Yes, he must, on the slim chance that something might lead to his finding Junior, something might bring Junior back. Now he did not think of Molly, but only of Junior.

He quickly walked to the hallway for his hat, overcoat and stick.

"Celeste," he called, "I'm going out. Don't be worried if I don't come back tonight."

Al was walking along the street, where the crowds had thinned out, for it was well on toward morning. Occasionally he met a band of drunken revellers, but he stalked by them with unseeing eyes, going nowhere in particular, but feeling the necessity for walking, walking.

All the time his mind worked furiously. Had Molly given up her stage job with The Merry-Golems? Had she quit the show flat? He must see Marcus in the morning and find out. Marcus might have some idea of her whereabouts.

Now Al saw the dark expense of Central Park before him, and without thinking he turned in the first entrance he reached. There were the low, snow-covered hills, the bare trees whispering gently at the winter wind, the reflections of the skyscraper lights in the cold water. Here was the Japanese bridge where he had taken Junior walking only last Sunday. He stopped as if waiting for someone or something.

At that moment a dark limousine came speeding past him on the driveway. Was it Molly's car? He sprang forward.

Quickly as Al moved, the limousine was faster. It looked like a Rolls, but he couldn't be sure. And it was too dark for him to read the license plate. He stopped; there were ten thousand cars in New York that resembled Molly's. He went on, walking the streets until daylight. Then he headed for home, threw himself on his bed, fully clothed, and fell into a sleep that was tortured by nightmares.

He awoke with the sun streaming through his window, tossed off his clothes, bathed, shaved and dressed hastily for the street. The first man to see was Marcus.

Marcus was in his office. He looked up in genuine surprise when Al walked in, pale and haggard.

"What's the matter, Al?"

"Nothing much. Has Molly quit your show?"

"Yes—didn't you know?" A shadow crossed Marcus' face. "She quit last night, just like that." Marcus snapped his fingers. "With no explanation except that she was tired and needed a rest. The press department got busy on it. Didn't you see the morning paper?"

(To Be Continued.)

## Radio Sets Installed

Prisoners At Sing Sing Prison Can Listen In

In each of the 1,500 cells of the new extension at Sing Sing Prison is a radio receiving set, after the manner of the ultra-modern metropolitan hotels. The installations have even made it was officially confirmed today, following reports by prison employees, and in the future convicts with terms of from two years to life may listen to concerts, to news of the outside world, sermons and bedtime stories.

The guests of the state of New York may listen in, but they may not tune in. They must listen to what comes over the air from the central receiving station in the prison auditorium, whether the program be to their taste or not. The privilege was extended after the new rules, curtailing motion picture theatre visits from seven nights a week to two, went into effect.

The Mutual Welfare League bears the expense of installing and maintaining the radio equipment.

## Little Helps For This Week

"Make sure thy friend."—Proverbs vi. 3.

Believe me better than my best. And stronger than my strength can hold.

Until your royal faith transmutates My pebbles into gold.

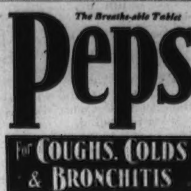

—Elizabeth Stuart Phelps.

To win and hold a friend, we are compelled to keep ourselves at his ideal point, and in turn our love makes on him the same appeal. All around the circle of our best beloved, it is this idealizing that gives to love its beauty, and its pain, and its mighty leverage on character—its beauty, because that idealizing is the secret of love's glow; its pain, because that idealizing makes the constant peril of its vanishing; its leverage to uplift character, because this same idealizing is a constant challenge between every two, compelling each to be his best. "What is the secret of your life?" asked Mrs. Browning of Charles Kingsley. "Tell me, that I may make mine beautiful too." He replied, "I have a friend." —William Channing Gannett.

Little John was interested in the rufflers on the sleeping porch. "What are those round things Daddy?" he asked.

"They are knot holes, Son."

"Well, if they are not holes, what are they, Daddy?"

## Have Splendid Record

Ontario's Flying Firemen Not Confined To Patrol Work.

In addition to organized forces of land patrols, the Ontario Government is trying to safeguard the valuable forest reserves from fire by patrols from the air. Up to the end of August, air patrols employed by the provincial government had flown 9,900 hours or 3,300 hours more than the total flying time on a similar service last year. Not only do these flying firemen do patrol work, but when a fire is detected they land at a fire protective service station, load men and fire fighting material, and take them as near as possible to the scene of the fire.

## Fall Colds

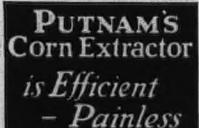

Beware the cold that starts in the fall and hangs on all winter. Use Minard's Internally and externally to drive it away.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great and disagreeable hour. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—no directions.

## A Speedy Traveller

Rabbit Can Keep Ahead Of Ford Motor Car

The driver of a motor-car in Switzerland, tells the story of the astonishing speed and long-persistent effort which a rabbit is capable of. He happened to start one, which on its flight kept to the road. In order to keep up with the rabbit, the man had to speed up to about 34 miles an hour, and the sturdy little creature held out for over a league before it finally jumped into ditch by the roadside.

The electric cat of Brazil and Guinea can administer a shock strong enough to overcome a horse.

A reliable Antiseptic—Minard's Liniment.

W. N. U. 1807

## Calendar.

- OCTOBER—  
18—Dance at Holborn Hall.  
19—Dance at Ukrainian Hall, at Carvel.  
22—R P Shaw's Auction.  
23—Annual shoot of Stony Plain Rifle Club at Comet Butte. Smoker in evening.  
23—District Court opens in Stony Plain.  
23—Chicken Supper and Bazar in Miller's Hall.  
25—Hon. Chas Stewart to give an address in Stony Plain.  
31—Dance at Heatherdown.  
NOVEMBER—  
1—Dance at Garden Valley school house.  
1—Dance and Entertainment at Holborn Hall.  
2—Bazar at Spruce Grove Union Church.  
4—Moose Lodge meets.  
11—Thanksgiving Day.

## A Chinese Funeral

The funeral took place on Saturday afternoon of Chou Kon, the Celestial who died on Friday's midnight train when the latter was nearing Stony Plain. The body was removed from the train here and Coroner Outway called; the remains being taken later to Armbruster's morgue. Deceased had been a resident of Unity, Sask., and was on his way to Vancouver to receive treatment from a Chinese physician. He was accompanied by his brother Chou Jim, who stayed over here, to attend to the burial details.

## Carvel Clippings

Mr Yerko Capp, the well-known farmer of Carvel district, was taken to Edmonton on Tuesday for "treatment."

The Duffield bailiff who came to the Pawlyk farm on Monday to execute a seizure, changed his mind when he seen the opposition he had to contend with.

There is a dance billed to be held at the Ukrainian hall next Saturday evening.

Ducks are very plentiful in the sloughs around here, at present.

Messrs Capp, who threshed Mr Mashtaler's crop, report that on an acre plot, Garnet wheat threshed 62 bu. to the acre.

## Railway Time Table

Going East—Mon., Wed., Fri. at 6.45; every morning at 5.43.  
Going West—Sun., Tues., Fri. at 13.25; every midnight at 24.24.

## DANCE,

Garden Valley Schoolhouse

FRIDAY, OCT. 25

BARTH'S ORCHESTRA.

REFRESHMENTS.

## Pick's CAPS

—are made for those men and young men who appreciate the little touch of refinement in head dress.

The most comfortable and most serviceable caps made for golf, motor and all outing occasions, as well as street wear.

T. J. HARDWICK,  
Stony Plain.

## Stony Plain and District.

Mr Chris Pitzler attended the meeting in Edmonton on Tuesday of the meeting of the directors of the Dairy Pool.

Eric Heichen is in an Edmonton hospital this week, undergoing a minor operation.

Mr Ingram, of the Order of Moose, was a visitor in Stony this week.

Mr Jack Shearer, Calgary, was a week-end visitor with friends here.

The cafeteria supper given Monday evening by Union church Ladies Aid was quite a success. The concert which followed featured, in addition to the local well known talent, Mrs Hale's string quartet, and Mrs Lucas, elocutist, all of Edmonton.

The hearing of the appeal in the Goebel prairie fire case will be concluded tomorrow, in Edmonton.

The fall sitting of District Court opens in Stony next Wednesday, with a fair-sized docket.

A delegation from the local Moose Lodge were in attendance, Tuesday night, at the session of the Edmonton Moose Lodge.

Bazar and chicken supper in aid of Spruce Grove and Stony Plain parishes in Miller's Hall on Wednesday next, Oct. 23d.

Farmers having chickens to sell should bring these to P Henkel, phone 58.

7% is a good return on your money; so is a subscription to your local paper.

## Church Services

A Lutheran service in English will be held in Stony Plain Sunday next at 7.30 p.m., by Rev. Osterman.

Service at United church Sunday evening at 7.30; Rev G A Sauder.

## United Church Notes.

On Sunday last, at Spruce Grove, two very beautiful duets were sung by Mr and Mrs Sherwin.

At Bright Bank the regular service was held in the afternoon, with a good attendance.

The church was well filled at the Stony Plain service. The subject of the sermon was "While men slept the enemy sold tares."

The annual supper and concert were both very successful in every respect. The Alberta College string orchestra rendered excellent music. Mrs Lucas and Miss Mayhew gave splendid readings. There was a piano duet by Misses Esme Malloch and Edith Outway. Mrs Yeats and Miss Peters each sang very fine solos.

## Better Prices for Graded Eggs

Now that the egg grading is in operation under the Dominion Act of Parliament, it is found that the grading of the eggs is producing in many cases a better financial return for the farmer than under the old arrangement. The eggs are being graded independently, and are graded as they come in; the producers getting the full return right away. We have heard many comments that the arrangement is much better than the old one, as the man who produces the right article gets the price for it. Today's prices: Extras 38c; fresh firsts 34c; 2nd's 25c.

Hear the Moose Orchestra (Edmonton) at Holborn Hall, Friday, Nov. 1.

## The Rifle Club's Big Day.

The annual shoot of Stony Plain Rifle Club will be held at the Ranges next Wednesday, Oct. 23, starting at 9.30 a.m.

The usual fee of \$1 for the day will be charged. This includes lunch, which will be served around noon.

Individual shooting will be held in the forenoon up to 1 p.m. and all entries must be in by 12.30. All entries for team shooting in the afternoon must be in by 1.30.

The usual smoker will be held in the evening of the same date in Widdell's hall at 8.30; admission \$1.

Social and Entertainment, Holborn Hall, Friday, Nov. 1.

## Spruce Grove News

The local troop of the Boy Scouts will meet on Friday evening in Municipal hall.

At the M.D. Council meeting on Monday the question of the lighting of streets in the Grove came up for discussion, when the Councillors agreed to be responsible for half the cost.

The Ladies Aid of United Church are holding a sale of articles and home cooking on Sat. Nov. 2d, in the church building.

Chicken thieves are said to be operating in the roosts of careless farmers in the district north of the Grove. A farmer named Gabel is said to have lost over 100 head on a recent midnight raid.

Mr Gustav Pottz lost a quantity of hay which was up in coils in his slough, from a fire said to have come in from a neighbor's land.

A brush fire, said to have been started when the road gangs were operating there, has run in on the land of L Javorsky, and is at present doing considerable damage.

Rev C Keenan has acquired a new Ford Coupe.

The quarter section of land which Mr Playfair of Midland, sold 15 months ago for \$1250, turns out to be a gold mine. The purchaser, Mr D Brox, has resold it to a gravel contractor for \$20,000. Twenty thousand dollars is a lot of money—even for the Grove; but Dan says, Go ahead and print it, "them's the right figures."

GIRL WANTED—Apply at Spruce Grove Hotel.

# Ford

## The Finest Car Made at a Low Price.

Back of the new Ford are manufacturing and production methods, as unusual as the car itself. Without these it would be impossible to give you the value that is in the New Ford. Because of them it is unquestionably the best motor car that can be made at a low price without sacrificing quality anywhere on it. We make immediate deliveries on all models.
